

Air Force Installation & Mission Support Center

AFIMSC Capability Logistics Readiness

The Air Force Installation and Mission Support Center provides logistics functional management, readiness and intermediate installation support to all Department of the Air Force installations. AFIMSC provides enterprise management for deployment and distribution capabilities to fully support I&MS commanders. AFIMSC works in partnership with the Air and Space Forces to provide enterprise-wide air and ground transportation, logistics plans and program analysis, and traffic management support capabilities.

Air and Ground Transportation Support

The logistics readiness team provides intermediate-level oversight, policy guidance, continuous evaluation and process improvement recommendations for air and ground transportation. These recommendations optimize innovation, standardization, training and compliance for operations across the enterprise to support the rapid delivery of air and space power anytime, anywhere. The team's influence directly enhances overall mission accomplishment and increases the lethality and readiness of air and ground transportation Airmen to execute transportation capabilities across the full spectrum of military operations.

Logistics Plans Support

AFIMSC provides installation deployment readiness personnel with subject matter expertise focused on logistics planning and execution. The center promotes innovation as a true force multiplier to strengthen the ability of each installation to successfully respond to wartime taskings, contingency operations and emergency action plans. This includes virtual reviews of installation support agreement programs to promote effective and efficient delivery of vital base operating support across the full spectrum of Air and Space Force missions.

Traffic Management

AFIMSC's Traffic Management team supports active-duty Air and Space Force Traffic Management Operations, or TMO, by enhancing efficiencies in the movement of DoD cargo/materiel and personnel on official government travel.

Traffic Management provides intermediate oversight, ensures adherence to governing policy and provides subject matter expertise and assistance to installation TMOs, major commands and direct reporting units to ensure the rapid movement of critical assets and materiel. Cargo and passenger movement experts interpret regulatory guidance, provide policy determinations, analyze shipping and travel processes, track trends and assist logistics readiness squadrons in meeting vital mission needs.

Your Success is Our Mission

Programs and Other Functions

- Government Motor Vehicle Official Use Program
- Special Transportation Services and Authorizations Liaison
- On-line Vehicle Interactive Management System
- Data/Metrics Review and Management Program
- Government Motor Vehicle Licensing
- Government Motor Vehicle Misuse Program
- Documented Cargo Delivery Special Transportation Services and Authorizations Liaison
- Reusable Container Program
- Supply Discrepancy Report Program
- Transportation Discrepancy Report Program
- Intermodal Container Management Program
- Wood Packaging Management Program
- Mandatory Individual Billed Account Usage
- Unused Ticket Reporting
- Support Agreement Management Tool
- Logistics Module
- Base Support and Expeditionary Planning Tool
- Enlisted Development Teams

- USNORTHCOM Base Support Installation Checklist
- Air Transportation Function Program and Workload Data Tool
- Unilateral Aircrew Training Program and Inventory Tool
- Tech Training Grad Assignment Allocations
- Assignment Allocations
- Talent Marketplace Ads (formerly Equal Plus Ads)
- Specialty Training Requirements Teams
- Unit Type Code Management
- Utilization and Training workshops

Readiness

Major Command Functional Managers and Functional Area Managers deliver responsive and integrated agile combat support readiness for I&MS capabilities. MFM and FAM experts evaluate personnel placements to provide global career field manpower, manning, unit code management and force development that ensures installation leaders receive trained and mission-ready professionals.
