

# Air Force Installation & Mission Support Center

## AFIMSC Capability Security Forces

The Air Force Installation and Mission Support Center helps the Department of the Air Force protect the nation by ensuring security forces personnel have the training and resources they need to protect, defend and fight. AFIMSC develops, manages and executes security forces capabilities and associated programs for DAF and joint mission sets to provide safe and secure operating environments.

### Planning, Programming and Budgeting

AFIMSC manages programs and provides the planning and budgeting necessary to execute security forces operations. AFIMSC validates current-year requirements to properly designate funding, conducts continual program execution evaluation at the squadron level, and provides functional expertise to the Installation Health Assessment process to increase installation resiliency and force protection. AFIMSC detachments also provide antiterrorism program management support to major commands.

### Installation Health Assessment Functions

Integrates and assesses 22 I&MS mission areas

Evaluates performance, cost and modernization

Assigns risk to mission and force

Informs the planning and programming process to shape installations of the future

### Security Forces Operations

AFIMSC trains, equips and manages program execution for the security forces enterprise worldwide. AFIMSC provides subject matter expertise to the field to drive integration and innovation.

AFIMSC enables missions by providing security forces functional implementation policy guidance, identifying and evaluating functional requirements, plans and programming processes of security forces prioritized requirements.

**Your Success is Our Mission**

## Security Forces Mission Areas

Integrated  
Air Base  
Defense Security

Ground Combat and  
Advanced Deployment  
Readiness Training

Law and  
Order  
Operations

Security Protection  
for Nuclear and  
Non-nuclear Assets

Military Working  
Dog Training  
and Care

Air Force  
Corrections  
Management

Logistics Support  
for Individual and  
Team Equipment

Training and Maintenance  
for Small Arms  
and Light Weaponry

Sustainment and  
Other Vital Ancillary  
Training Requirements

## Readiness

Major Command Functional Managers and Functional Area Managers deliver responsive and integrated agile combat support training and readiness for I&MS capabilities. MFM and FAM experts evaluate personnel placements to provide global career field manpower, manning, unit type code management and force development that ensures installation leaders receive trained and mission-ready professionals.
