

## **New MyVector Mentoring Tool Capabilities!**

If you felt that MyVector was hard to navigate or didn't have all the information needed to make informed decisions on the best fit for you, it has been redesigned with new tools and capabilities! Mentor matching is now much easier!

Employees are now able to do the following:

- Self-identify as someone seeking a mentor or someone who wants to be a mentor
- Track the status of their mentoring requests and be notified whether their request is pending or approved
- Send messages to mentors without leaving MyVector
- Browse courses, articles, and videos related to mentoring on the new Resources page
- Share documents such as Officer Performance Reports and Enlisted Performance Reports
- Locate a mentor based on employee preferences through the enhanced filter capability
- Search for mentors based on the below new attributes
  - o Ethnicity
  - o Race
  - o Disability
  - o Participation in the Exceptional Family Members Program (EFMP)
  - o MAJCOM
  - o Organizations
  - o Rank

Note: Mentees looking for mentors based on the new attributes should wait a few weeks before conducting a MyVector mentor search. As more mentors update their profiles, more mentors with specific attributes will show up in the mentee's search results.

Future enhancements:

- Active users with a mentoring profile, to include sister-services, will have access to mentoring via MyVector.

- Mentees will be able to share their Airman Development Plans, and Individual Development Plans for civilians.

Log into MyVector, check out the new capabilities, and find your mentor today at <https://myvector.us.af.mil> and visit the AFIMSC mentoring page at <https://usaf.dps.mil/sites/13942/iMentor/SitePages/Home.aspx>.

POC: Mr. Robert Espejo, robert.espejo.3@us.af.mil
