

The SMT Program Office is providing an online training session on the Enterprise Analytics app within SMT. This training will introduce the user to building visualizations using Enterprise Analytics with RAD and Services Acquisition data. Learn how to analyze data for your organization. This course is highly recommended for personnel involved with services acquisition. No advance registration required – the link and details are below:

Date: 07 Dec 2021

Time: 13:00 – 14:00 **EST**

ZOOM Link:

<https://www.zoomgov.com/j/1608393200?pwd=c28xU3NhOW1zS2xjM0JHY0pBekREdz09>

Dial: (669) 254 5252

Meeting ID: 160 839 3200

Passcode: 225406

Services Acquisition:

The Services Acquisitions (SA) Application is used to create, manage, and track the SA and contract information for related requirements. Users can navigate the application ensuring all of the essential information is entered at each stage of the acquisition.

Enterprise Analytics:

SMT Enterprise Analytics is a business intelligence application that utilizes data from authoritative sources allowing users to create custom dashboards to analyze their requirements and acquisitions.

AFIMSC RAD Administrator is Dorothy Howe, dorothy.howe@us.af.mil, AFCEC RAD administrator is kelly.osvold@us.af.mil.
