

LOCATION MATTERS!

By Julio Toala

*AFCEC Planning and Integration Directorate Geospatial Operations Manager
and Tracy Maxwell, AFCEC Technical Writer and Application Analyst*

Did you know Air and Space Forces 'location matters' are shared via the United States Air Force GeoBase milSuite page, an Airman and Guardian resource for keeping up to date on Combat Support Geospatial Information and Services activities and capabilities?

If you need self-help training on geospatial capabilities available to all Airmen or know someone who does, check out the training resources on WGIO -- AF GeoBase Education & Training, GeoBase Information Hub (Education & Training), and GeoBase Compass 2020 Virtual Workshop, which contains all sessions -- videos, presentations, and capability links -- from the 2020 event.

Take a moment to check out the page and consider joining and following Combat Support Airmen making a difference for our Air and Space Forces around the globe.

For immediate support, contact us at GeoBaseSupport@di2e.net or go to one of the following links:
